Northwest Buffalo Community Health Care Center

155 Lawn Avenue
Buffalo, NY 14207
875-2904

Accept all insurances in addition to Medicaid and Medicare; sliding scale fee for uninsured based on income & number of household members.

University at Buffalo School of Dental Medicine

Squire Hall
University at Buffalo's South Campus on Main Street near Bailey Ave, Buffalo
829-2821
Fee for service.

Prior to acceptance we require prospective patients to fill out an application and proceed through a 'screening appointment.' Application and screening do not guarantee acceptance. Many factors influence your acceptance into our educational program including but not limited to: the complexity of your dental health and your availability. Request a patient application packet from the patient admissions office at (716) 829-2821. Complete the forms and return them with the screening fee of \$41 or Medicaid information in the envelope provided. Please make check or money order payable to School of Dental Medicine. DO NOT SEND CASH. Please respond within 30 days. Following the return of your completed forms and screening fee you will be contacted by phone or postcard to schedule your screening appointment. Due to increased demand at various times of the year, there may be a delay before screening can take place.

Clinic hours are 9:00 AM to 12:00 PM and 1:00 to 4:00 PM Monday through Friday. Clinics are closed weekends and some holidays which are recognized by the University.

Patients who do not qualify to participate in our clinical educational program will be notified in writing. We regret that all patients screened cannot be accepted for dental care. Your treatment may be too complex for student dentists and may be best managed by a private dentist.

The fees charged are substantially less than the cost of care from a private dentist and treatment progresses more slowly. The lower fees are offered to compensate for the longer treatment time and more frequent visits. Your estimated fees will be presented to you along with a treatment plan before any substantial treatment is begun, however, payment is required at time of service. It may become necessary to refer some or all of your treatment to one of our post-graduate or specialized clinics. Fees for treatment by dentists in our advanced

clinics are higher than those offered in the student dental clinics (pre- doctoral), because the providers are licensed dentists working either toward a specialized degree or gaining additional experience in a general dentistry setting. You will be informed if all or part of your dental care requires referral to one of those clinics.

If you have Medicaid, call 858-8666 for a list of dentists who accept Medicaid.
